

IOWSAB Response to Mr V from Independent Chair

This case review was not a statutory Safeguarding Adults Review, but a small scale review in accordance with Section 14 of the Care Act. It was commissioned by the Safeguarding Adults Board on the Isle of Wight because there seemed to be lessons to be learned about improving practice. A professional's review workshop was held on the 16th October 2015, and the attached report highlights a number of key learning points.
